

**CH 19**

**Vocabulary ALL (DUE 2/5)**

evolutionary hypothesis  
catastrophic hypothesis  
passing star hypothesis  
nebular hypothesis  
angular momentum problem  
solar nebula theory  
terrestrial planets  
Jovian planets  
asteroid  
Kuiper belt  
Kuiper belt object  
comet  
radiation pressure  
meteoroid  
meteor  
meteorite  
half-life  
condensation  
condensation sequence  
uncompressed density  
ice line  
accretion  
planetesimal  
proto-planet  
gravitational collapse  
heat of formation  
differentiation  
outgassing  
Jovian problem  
direct collapse  
heavy bombardment  
debris disk  
extrasolar planet  
transit
